			Bovatec™	

MEDICATED FEED STUFF
FOR ANIMAL TREATMENT ONLY

DOSE RATE:

1 x 25kg bag per tonne of finished feed.

TIMING:

Best added to Lamb feedlot diets when Lambs are part on an intensive feeding program.

THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL

DIRECTIONS FOR USE:

Feedlot Lamb Concentrate is to be mixed with a Lamb feedlot diet at a rate of 25kg/tonne of feed. Hay should be fed through the early part of the feeding program. An induction program managing daily incremental increases in grain and distribution of grain to all lambs is key to success. Contact Compass Feeds to discuss induction.

BEST BEFORE:

12 Months from date of Manufacture.

STORAGE:

Store in a cool dry place, out of direct sunlight.

MEDICATED/NON MEDICATED:

Medicated - Bovatec™.
THIS PRODUCT MAY BE FATAL IF FED TO HORSES OR DOGS.

WITHHOLDING PERIOD:

Nil Withholding.
