FEEDSAFE ACCREDITED

Compass feeds is a Feedsafe accredited stockfeed manufacturing facility

INFORMATION

Ensure appropriate vaccinations & drench protocols are in place.

Do not introduce starving or hungry stock to grain-based diets quickly.

Introduce gradually, starting at 200 to 300 grams/ day, increasing gradually over a 14 to 21 day period to the recommended / suitable level. This allows the appropriate build up of grain digesting microbes in the rumen of the animal.

Do not allow feed to get wet. Avoid feeding mouldy feed if it gets wet.

- Nil medication
- Nil withholding period.
- No added growth promotants or hormones
Does not contain restricted animal material
- Optional Bovatec [tm alpharma] as anti coccidial.
