

MAXIBUFF

RUMEN BUFFER

MaxiBuff

SUMMARY:

MaxiBuff is an organic feed supplement rich in bio available minerals. It is a combination of coccolithophore [calcium algae], lithothamnium [calcium algae]and highly reactive magnesium oxide.

MaxiBuff is a strong alkaline buffer and acts by slow-release of carbonated salts of Calcium and Magnesium which are highly soluble. This results in a product which provide long-acting rumen buffering against acidosis [grain poisoning] in ruminants.

CONTAINS:

Calcium	34%
Magnesium	2.8%
Iron	120 mg/kg
Copper	11 mg/kg
Zinc	38 mg/kg
Manganese	140 mg/kg
Iodine	76 mg/kg

FEEDING RATE

This is a guide only, use as directed, please seek professional nutritional advice.

Dairy cow	50 to 100 g / hd /day
Dry cow in transition	40 to 50 g /had/day.
Sheep & Goat	0.5% of the mixed feed

MaxiBuff

Reported conclusion:

- Better neutralization of rumen acids
- Long-acting rumen buffering.
- Excellent source of bio available minerals.
- Improves fibre digestion.
- Boost yield and quality.
- Non hygroscopic.
- Allows increased concentrate feeding close to calving.
- Releases valuable Calcium & Magnesium to the cow.
- 100% natural, palatable powder form easy to handle.
- Maintaining optimum rumen pH, improving feed intake & digestion.
- Supportive treatment during heat stress.
- Improves general health condition and productivity of livestock.

PACK SIZES: 2kg, 5kg & 25kg bags

This product does not contain restricted animal material.

Store in a cool dry place, nil withholding period.

Store away from vermin.
