

LAMB GROW

FOUR

ZERO I/O PELLET

Trusted, Effective, Affordable

**PELLET CONCENTRATE FOR
FEEDLOT LAMBS**

SUMMARY:

Lambgrow FOUR Pellet is a high specification, non medicated buffer and micro-nutrient pellet for inclusion into Lamb feedlot rations. It is also suitable for containment feeding and supplementary feeding programs for all Sheep. Lambgrow FOUR Pellet delivers a range of key nutrients responsible for improved health, growth and feed efficiency performance and is particularly focussed on the management of rumen pH levels.

CONTAINS:

Macro Minerals	Trace Elements	Vitamins
Calcium 7.9%	Manganese	A, D, E & B1
Sodium 2.4%	Zinc	
Magnesium 2%	Copper	Additional Ingredients
Phosphorus 0.7%	Cobalt	Calcareous Seaweed
Sulphur 0.8%	Iodine	Sodium bicarbonate
	Selenium	Cereal Byproduct
	Potassium	Ammonium chloride
	Iron	Amylase

DOSE RATE:

2 x 20 g bags per tonne of finished feed from induction through to the end of the finishing phase.

TIMING:

For addition to Lamb Feedlot diets and also suitable for containment and supplementary feeding programs.

DIRECTIONS FOR USE:

Lambgrow FOUR Pellet is for addition to feedlot, containment or supplementary grain feeding diets for Lambs and Sheep. It is recommended to feed hay when grain rations are being introduced.

An induction program managing daily incremental increases in grain and distribution of grain to all animals is key to a swift and safe induction program.

BEST BEFORE:

12 Months from date of Manufacture.

STORAGE:

Store in a cool dry place, out of direct sunlight.

MEDICATED/NON MEDICATED:

Non-Medicated

WITHHOLDING PERIOD:

Nil Withholding.

PACK SIZES:

20KG bag, 50 x 20kg bags per pallet. Bulka bags.

- ✓ **HIGH SPECIFICATION**
- ✓ **STRONG BUFFERING CAPACITY**
- ✓ **DESIGNED FOR HIGH PERFORMING FEEDLOT LAMBS**
- ✓ **HIGH B1 LEVELS TO MANAGE PEM**
- ✓ **HIGH ANTIOXIDANT ACTIVITY**
- ✓ **PELLETED TO REMAIN SUSPENDED WITH GRAIN**
